Good morning Mr. Swenson,

Can you or someone in your division assist Ms. Hubbard.

Thanks much!

Good morning; Ex. 6 - Personal Privacy

Thanks for reaching out to the United States Environmental Protection Agency (USEPA). I have forwarded your email to Mr. Joseph Swenson who is the expert on the Menominee River, he or someone in his division will be contacting you shortly.

I hope this information helps, if you need further assistance please feel free to contact the USEPA Hotline [800-621-8431](tel:800-621-8431).

Thanks much

I sincerely hope the EPA will step in and do an environmental study of the proposed open pit mine located at N7373 River Rd. Stephenson, MI. I hope you will check out our website Stop The Back Forty Mine. This will show you the site, which will be located near the banks of the Menominee River. This river borders Michigan and Wisconsin. Any contamination would be devastating!
